

“Tourism contributes to regional development”

recreational park “Résidence Klein Vink”, Arcen, The Netherlands

8

Wissing is a leading urban design and planning consultancy office in Rotterdam, The Netherlands.

For over 60 years we offer contemporary and innovative projects. Our portfolio consists of mixed use urban areas, city centers, new towns, as well as landscape and regional design, regeneration of former industrial areas, leisure-, retail- and business parks.

For each case we are able to create a specific solution in which planning, energy, water and social aspects are integrated. In this way we reach the base for a sustainable growth or reconstruction on different scale and context.

We delivered projects in the Netherlands as well as other countries like South Africa, Ethiopia, Irak, Germany and India. Our clients includes both governments and authorities as property developers.

Wissing Principles

- 1 Regional planning
- 2 Mixed use areas
- 3 Reconstruction
- 4 Affordable housing
- 5 Energy and sustainability
- 6 Public space
- 7 Infrastructure
- 8 Tourism and Leisure
- 9 Neighbourhood
- 10 Corporate social responsibility

We believe tourism contributes to the development of a regional economy as well as to its natural character.

Attracting tourists provides investments. Local communities can benefit from tourism by the creation of employment and the protection of existing natural or cultural values. We experience that ideas like this are often present. However, there is a lack of knowledge how a project actually can be realized. We can help!

We are involved in the development of several leisure and recreation projects. Through cooperation and approach, our designers develop unique spatial concepts. We are looking to join the local characteristics and qualities and ensure adequate integration in the landscape. This is the true basis for sustainable economic and ecological development.

The project shown below is the luxurious recreational park "Résidence Klein Vink" in the Dutch province of Limburg. This borders on National Park De Maasduinen as well as on the thermal bath Arcen. On behalf of this development Wissing offered a vision on the recreational potentials of the village and its surrounding of Arcen. The developments are in accordance to the natural and ecological existing qualities of the environment.
